(603) 966-2320

We are going to spend a lot of time practicing letters and sounds along with some new words. We'll learn how to count to 100, add and subtract while playing some fun math games. We'll be writing stories and learning lots about science and social studies. We're also going to be learning about Choose Love.

"Be the Reason someone Smiles today."

I have been in the Nashua School District for over 20 years. I have taught grades K-3. I am married and I'm the mom/stepmom of 3 boys and 2 dogs. I love spending time outdoors and I am a big believer in health and nutrition. Ask any of my students, when you walk into our classroom what will you see? They will probably answer squats or pushups.
